

Message from the President

Dr. Rima Wilkes, University of British Columbia

The CSA has been busy preparing for the upcoming International Sociological Association Conference in Toronto. As you know, conferences don't happen without a lot of behind the scenes work. I wanted to take this opportunity to draw your attention to the behind the scenes work of two individuals: Patrizia Albanese and Sherry Fox.

CSA hosting and participation in ISA would not have been possible without the tireless efforts of **Patrizia Albanese** (also now the winner of the Outstanding Contribution Award) **Professor of Sociology at Ryerson University**. Not only was Dr. Albanese a member of the team who made the original bid but she has also chaired the local organization committee. To put what Dr. Albanese has done in preparation for this conference in perspective – I would say that it is the most demanding service position I have ever seen anyone in my career take on! It would be an understatement to say that the CSA is extremely grateful for all her work.

The other person we all have to thank is **Sherry Fox**, our **CSA Executive Administrator**. Sherry has been instrumental in organizing all the logistics of the conference. This includes promotion and sales relating to exhibits, advertising, and sponsorship; supervising and collaborating with volunteers, media and accessibility; compiling the website and program information; helping delegates with visas and childminding registration; and planning the special events and receptions. Each of these is a job in itself. The CSA is extremely fortunate to have an Administrator who can take on the work of an entire Administration!

Enjoy the conference, enjoy the summer and please do not hesitate to get in touch with any ideas you have!

Rima Wilkes

Media and Publications Website

The Canadian Sociological Association is pleased to present a new forum to highlight the extensive work of our members within the broader community. This service is exclusively available to members of the Canadian

Sociological Association in good standing.

Benefits to our members include promotion of their most recent media interview or coverage of their research as well as published books and articles. The site also features a media contact list to foster engagement between the media and our members.

We encourage our members to take advantage of this opportunity.

Global Dialogue Highlights World Congress

Issue 8.1 highlights the XIX ISA World Congress of Sociology with articles from Canadian Scholars.

Global Mapping of Sociologists

The International Sociological Association has undertaken the development of the "Global Map of Sociologists for Social Inclusion" (GMSSI) to create the global database of sociologists.

GMSSI aims to identify, connect, and enable global collaborations in sociology, and support sociologists who encounter multiple barriers, economic and political, which impede participation in global exchanges.

Your participation is important to the success of GMSSI in building this global sociological community.

Tri-Council Data Management Policy Initiative

At the 2017 CSA Annual Conference, the Research Advisory Committee organized a panel on SSHRC's research data management policy initiative in the context of Tri-Agency consultations on the initiative. The panel was the result of earlier discussions between SSHRC and the CSA on this matter. The panel, which was entitled SSHRC's New Data Management Policies: What Do they Mean for your Knowledge Making Practices, was moderated by Dr. Andrea Doucet (Brock University), and featured Dr. Jeremy Geelen, a SSHRC Policy Analyst, Dr. Margaret Kovach (University of Saskatchewan) and Dr. John McLevey (University of Waterloo). The panel served as a venue for sociologists to provide input to SSHRC on their views and concerns about issues of data management in research practices. Those present were cautiously optimistic that members' various concerns would be taken into consideration as the three federal research funding agencies drafted the policy. The panel was timely given that SSHRC was in the early stages of developing policy that could affect the way that sociologists manage their research and knowledge making processes.

Following the conference, the Research Advisory Committee continued to monitor developments pertaining to the initiative. In early June 2018, SSHRC invited feedback on the draft policy and its usefulness in advancing data management practices in Canada. The CSA encourages members to familiarize themselves with, and provide feedback on, the policy. Feedback should be sent directly to SSHRC (ResearchData-Donneesderecherche@sshrc-crsh.gc.ca) by August 31, 2018.

For more information about the policy, please visit their website.
